
JUSTIFICATION STATEMENT FOR DESIGN SELECTION

Utah State University
Engineering Lab Building Remodel
DFCM Project No. 01283770

The selection committee wishes to express their appreciation to all of the teams. It was a very difficult selection based on the quality of all the design firms. The selection committee ranked Cooper Roberts Simonsen Architects as the top ranked firm.

The main difference among the teams was judged to be the depth and understanding of engineering lab spaces combined with renovation projects. The old program was understood and CRS conveyed an understanding of the opportunities that existed.

Final Ranking

1. E
2. D
3. F
4. B
5. A
6. C
